

## Money word problems

1. Natalie does a job for her uncle, who pays her £2. She does another job for her grandma, who pays her £6. How much money did she earn in total?
2. David has £20. He gives £2 to one of his friends. How much does David have now (in pounds)?
3. Four friends put £5 each towards a present. How much can they spend on the present?
4. Mum has £12 and shares it equally between 2 of her children. How much will they each get?

To access the 3 complete worksheets (including answers) at 3 levels of difficulty:

- one-step word problems with all four operations
- as above, but also two-step problems with addition and subtraction
- all two-step word problems with all four operations
