## Create a glossary

You need to:

1. Copy the two headings (**Word** and **Definition** into your book).
2. Look up each word in the dictionary.
3. Read the definition and, if there is more than one, choose the one about weather.
4. Try to put the definition **in your own words instead of just copying it**.
5. The word 'latitude' has been done for you as an example.

**Word**

**Definition**

Latitude      A number given in degrees north or south (e.g. 10° north), which tells you how close or far away a place is from the equator.

Longitude

Weather

Climate
