Add and subtract multiples of 10 and 100

When we add or subtract multiples of 10 we only change the tens

40 + 20 =   36 + 50 =   70 – 60 =   85 – 30 =

When we add or subtract multiples of 100 we only change the hundreds

710 + 200 =   136 + 400 =   790 – 300 =   428 – 100 =

When we add or subtract multiples of 10 we only change the tens

710 + 20 =   136 + 40 =   790 – 30 =   428 – 10 =

When we add or subtract multiples of 1,000 we only change the thousands

4,500 + 2,000 =   7,683 – 1,000 =

Add and subtract multiples of 10 and 100

When we add or subtract tenths we only need to change the tenths

0.4 + 0.2 =   3.6 + 0.5 =   0.7 – 0.6 =   8.5 – 0.3 =

When we add or subtract hundredths we only need to change the hundredths

0.71 + 0.02 =   1.32 + 0.04 =   7.97 – 0.03 =   4.28 – 0.01 =

When we add or subtract thousandths we only change the thousandths

5.713 + 0.002 =   9.121 + 0.004 =   2.676 - 0.005 =   4.287 – 0.006 =
