

Task Planner for Column Addition

Step	What to do	How it should look (for $346 + 79$)	✓
1	Write the first number (one digit in each box).		
2	Write the other number underneath. (Make sure you put units under units, tens under tens and so on).		
3	Write the + symbol.		
4	Draw a line underneath for an 'equals' sign.		
5	Start adding from the right-hand side (If a column adds up to more than 10 you need to 'carry'. Don't forget to write what you carry under the column)	<p style="text-align: center;">Start here</p> 	
6	Keep going until you have added all of the columns
